

BLINK SOLAR

European supplier of waterproof collapsible containers

Overview

What is a heavy duty collapsible bulk container?

Our heavy duty collapsible bulk containers are part of the BulkPak® line and transport even bulky, hard-to-fit parts safely. At the same time, the large FLCs hold up to 900 kg. With a return ratio of up to 1 : 2,6, the collapsible bulk containers optimise space utilisation during storage and return transport.

What is a non collapsible bulk container?

The collapsible or non-collapsible bulk containers are designed to withstand the rigorous, heavy load requirements in the manufacturing environment. With a weight capacity of 900 kg and extended length footprints, the ORBIS XXLPak hold heavy and bulky components.

What is a collapsible bulk container with extended length?

The collapsible bulk container with extended length is designed to handle extremely long and hard-to-fit parts. All extra long bulk containers are available with wide access doors and manufactured from high-density polyethylene using a structural foam-molding process for increased durability.

What is a large plastic bulk container suitable for?

Our large plastic bulk containers are suitable for: With high load capacities and a durable all-plastic design, ORBIS reusable bulk containers are designed to store and transport heavy-duty parts in automotive supply chains. Our XXLPaks can protect even large and bulky items during storage and transportation.
