Export volume of solar module industry companies

Overview

Which countries import the most solar modules in 2024?

From January to December 2024, China exported 10.57 GW of modules to Spain, down 10% YoY from 11.75 GW, accounting for 11% of the Europe's total, while the Netherlands led with a 40% share. The Asia-Pacific imported 4.56 GW of modules from China in December 2024, down 10% MoM from 5.08 GW and down 30% YoY from 6.56 GW.

How much solar energy does China Export?

It exported about 205.9 GW volume. The country's solar PV installations during the same period added up to 181.30 GW (see China's January-October 2024 Solar PV Installations Exceed 180 GW). With another 2 months to go, these figures can be expected to go up further.

How many GW of solar modules did Africa Import in 2024?

Africa imported 1.31 GW of modules from China in December 2024, up 17% MoM from 1.12 GW and up 222% YoY from 0.41 GW. China exported 3.62 GW of modules to the Africa in 4Q24, up 164 % YoY from 1.37 GW. In 2024, cumulative shipments to the Middle East reached 11.36 GW, representing a 43% YoY increase from 7.94 GW.

What are China's solar PV exports?

In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years. In addition, Chinese investments in Malaysia and Viet Nam also made these countries major exporters of PV products, accounting for around 10% and 5% respectively of their trade surpluses since 2017.

Export volume of solar module industry companies

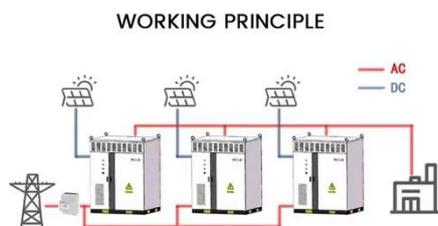

China's solar PV module exports reach 62 GW in 1Q25, down ...

China's total module exports reached 61.9 GW in 1Q25, down 8% YoY from 67.62 GW. In March 2025, the top five single-country markets importing Chinese modules were, in ...

Global solar PV supply chain

Global solar PV tracker market share based on shipments 2024, by company
Market share of solar photovoltaic tracker companies worldwide in 2024, based on shipments

The trend of "volume increase and price decrease" in PV module exports

Recently, China's General Administration of Customs released the import and export data of photovoltaic modules in May 2024, which showed that the export amount of ...

China's Photovoltaic & Storage Exports Achieve Record ...

In 2023, China achieved record photovoltaic export volume growth across all subcomponents, driving manufacturing expansion in emerging markets. Following Wood ...

2024 China Solar Module Exports Totaled 236 GW: InfoLink ...

Chinese solar module exports of approximately 28.79 GW to the Middle East in 2024 represented the largest geographical increase of 99% compared with the 14.46 GW ...

China: solar PV exports by component 2024, Statista

Export volume of solar photovoltaic equipment in China in 2021 and 2024, by component (in gigawatts) You need a Statista Account for unlimited access Immediate access ...

China Exported 206 GW Solar Modules During 10M 2024

China's combined crystalline silicon solar module production output within the 10 months of this year rounded up to 453 GW. It exported about 205.9 GW volume. The country's ...

China's solar panel exports reach 98 GW from Jan. to May

In May 2024, China's solar module exports showed a notable trend: higher volumes but lower prices. Data from the General Administration of Customs and calculations ...

China's solar PV module exports hit 236 GW in 2024, with ...

China's solar PV module exports hit 236 GW in 2024, with growth in all regions except Europe China exported 16.63 GW of modules in December 2024, up 9% MoM from ...
