Factory price safety breaker in Melbourne

Overview

Who makes Rs circuit breaker accessories?

RS is a globally recognised and trusted supplier, distributor, and manufacturer of industrial circuit breakers and circuit breaker accessories. In addition to our own RS PRO line, we carry a wide range of types from top brands, such as MCCBs from Siemens, MCBs from Schneider Electric and even electronic circuit breakers from ABB.

What are the different types of circuit breakers?

The range of circuit breakers includes air circuit breakers (ACBs), moulded case circuit breakers (MCCBs) and miniature circuit breakers (MCBs). Earth leakage relays detect ground faults and abnormal leakage currents. These protective measures ensure circuit integrity, prevent equipment failure, and enhance overall electrical system safety.

What does a circuit breaker do?

A circuit breaker is a safety device that protects your electrical system. It stops electricity if there is an overload or short circuit. Overloads happen when too many devices run on the same circuit, like a toaster, microwave, and kettle. Short circuits occur when damaged wires or faulty appliances create an unsafe current.

What are the benefits of a circuit breaker?

Cost-effectiveness: By preventing costly electrical damage and downtime, circuit breakers can save businesses significant money in the long run.

Discrete manufacturing: Industrial circuit breakers protect sensitive machinery and equipment on assembly lines, preventing damage from electrical faults and ensuring uninterrupted production.
