Financing for a 15kW Photovoltaic Energy Storage Container in South Asia

Overview

How will energy demand grow in Southeast Asia in 2035?

According to the International Energy Agency, electricity demand in Southeast Asia is set to grow at an annual rate of 4% to 2035. Clean energy sources such as wind and solar, alongside modern bioenergy and geothermal power, are projected to meet more than a third of this growth in energy demand in the region by 2035.

What is a solar power purchase agreement (PPA)?

Our solar power purchase agreement (PPA), allows you to pay only for the power you use with zero upfront capital expenditure (CAPEX). We handle everything else from financing, installation, to operations. Minimizing exposure to market volatility with fixed pricing on your electricity as of today.

How can a business benefit from a solar system?

These technologies offer a revolutionary way to harness and utilise solar power, addressing its intermittency and grid stability issues. Onsite solar solutions enable businesses to generate their own clean energy, reducing reliance on traditional power sources.
