Foldable Container Grid- Connected Government Procurement

Overview

River-sea intermodal transport is becoming increasingly popular for container repositioning in hinterland areas, owing to its cost-efficiency and low energy consumption. However, bridge heights and water.

Do foldable containers reduce repositioning costs?

In our ECR problem, the shipping company considers both transporting loaded containers and repositioning of empty containers over a planning horizon. Because empty repositioning incurs costs and consumes vessel capacity, foldable containers are used to reduce repositioning costs.

Do folding/unfolding costs affect the adoption of foldable containers?

Therefore, it is clear that decisions about foldable containers are influenced by folding/unfolding costs, which may affect the adoption and active utilization of foldable containers. Table 12. Total transportation and repositioning quantities of foldable containers between NA-Asia network. Empty Cell Empty Cell LDR RLDR Empty Cell Empty Cell.

Can foldable containers be used in maritime transportation?

Computational results show that the proposed formulation performs well in terms of operating costs and there exists a significant cost-saving effect when foldable containers are used in maritime transportation. Previous article in issue Next article in issue Keywords OR in maritime industry Empty container repositioning Foldable container.

What are the operating costs of a foldable container?

Inventory level of foldable containers at port at the end of period t The total operating cost consists of transportation, repositioning, holding, penalty, folding, and unfolding costs. The transportation costs consist of expenses incurred during container flow.

Foldable Container Grid-Connected Government Procurement

CCS unveils world's first five-in-one, foldable container

Compact Container Systems (CCS) has launched the SeaFold HC 40' container, the world's first five-in-one, foldable shipping container to improve operating inefficiencies, ...

(PDF) Economic benefits of deploying foldable containers: ...

This study seeks to explore the effectiveness of employing foldable containers (FLDs) in liner shipping to reduce relocation and the empty containers and bunker costs (BCs) ...

CCS Five-in-One 'Foldable' Container Set to Transform ...

Compact Container Systems (CCS) has announced the SeaFold high cube 40 ft container, the world's first five-in-one, foldable shipping container. With more than 20% of ...

'Foldable' container could transform global ...

A five-in-one foldable container design could boost efficiency and transform the carriages of empties, claims Florida-based Compact ...

'Foldable' container could transform global box logistics

A five-in-one foldable container design could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS).

World's First Five-in-One Foldable Shipping Container ...

Compact Container Systems has launched a five-in-one, foldable shipping container that reduces repositioning costs, storage space, and carbon emissions.

(PDF) Economic benefits of deploying ...

This study seeks to explore the effectiveness of employing foldable

containers (FLDs) in liner shipping to reduce relocation and the ...

CCS unveils world's first five-in-one, foldable ...

Compact Container Systems (CCS) has launched the SeaFold HC 40' container, the world's first five-in-one, foldable shipping ...

51.2V 150AH, 7.68KWH

Foldable container in empty container repositioning in ...

In this paper, the authors propose an empty container repositioning model in the intermodal transportation network of Belt and Road (B& R) Initiative by considering both standard and ...

Empty container repositioning with foldable containers in a ...

The results show that introducing foldable containers into empty container

repositioning along a river can utilize vessel space more effectively and decrease the total cost ...

Robust empty container repositioning considering foldable containers

Because of the extreme imbalance in intercontinental trade, the repositioning of empty containers creates a significant problem for shipping companies. There are many efforts ...

The Impacts of Foldable Containers, Street-Turn and ...

In this study, we developed a mathematical model for an integrated shipping net-work to investigate the impact of street-turn, depot-direct, using foldable containers, and ...

Optimization of container scheduling considering the use of foldable

The imbalance in global trade has led to

an uneven distribution of empty containers worldwide, resulting in difficulties in cargo transportation. For instance, import ...
