.

What is an ups & how does it work?

UPS units are emergency power supplies that ensure uninterrupted power delivery. In the event of a power surge or outage, the UPS takes over as the primary power source. This allows, for example, the saving of current projects and the safe closure of documents. A UPS protects hardware components from the negative effects of power surges.

What are high-performance uninterruptible power supplies?

High-performance Uninterruptible Power Supplies - ensure that your equipment will always work regardless of voltage spikes and power failures.

Where can I buy a static & dynamic ups?

As the exclusive ACTIVE POWER dealer and official ABB reseller in France, Eneria can offer a unique catalogue of static UPS (Uninterruptible Power Supply) and dynamic UPS . Fluctuations and failures of the power supply, from simple voltage dips to total power cuts, can have disastrous consequences on the products or services of your activity.
