# **Free consultation on 40-foot folding containers**

## Overview

---

What is a seafold 40 HC container?

SeaFold 40' has the same features as a conventional 40' HC container. Requires no special handling or maintenance equipment. Safe and easy folding and erecting procedure. Compatible with all standard lift equipment found in most ports and terminals. Serviceable by existing maintenance organizations and depots throughout the world.

What is a 40 ft container?

More space: A 40 ft container gives you double the length of a 20 ft container. That extra space means even in a single container you can fit in a proper living area, kitchen, bedroom, and bathroom. Better value: While a 40 ft container costs more than a 20 ft one, the cost per square foot is usually lower.

How much space does a 40 foot shipping container provide?

Two 40 foot shipping containers: Two containers provide 640 square feet of available space, which is a more comfortable size. This allows for a comfortable single-bedroom layout or a compact two-bedroom, two-bath layout for small families.

How much does a 40 ft container home cost?

Single 40 foot container home: A single 40 ft container offers approximately 320 sq. ft., which is ideal for a studio or small one-bedroom layout. It's a budget option that provides maximum affordability while still allowing for some design versatility. Estimated Cost: \$40,000 - 80,000.
