Gaborone Chemical Power UPS Uninterruptible Power Supply

Overview

What are the different types of uninterruptible power supply (UPS) products?

LEGRAND offers a range of Uninterruptible Power Supply (UPS) products that are divided into 2 different types of products: single-phase and three-phase. The range is wide and complete, with solutions that guarantee maximum performance in terms of power and backup time.

Why should you choose Riello & pureline ups in Africa?

Along with internationally renowned Riello and Pureline state of the art UPS, STS, ATS and voltage regulator systems with ELITE batteries, give any UPS user in Africa, peace of mind and a trouble-free emergency power backup solutions with product guarantee options of up to 5 years.

Who are ups engineers?

Vast in-house tertiary and internationally qualified expertise in electrical engineering, with a team of over 30 employees who are more than 70% technically qualified and experienced, resulting in a solid engineering base in the UPS emergency backup power industry.

What makes ups different?

Each type of UPS is characterised by different design properties, which means that the range is ideally suitable and usable in different environments, from domestic to tertiary and industrial sectors, and applications in specific fields. Configurator, Software and Documentation
