Gigawatt Solar Major Projects

Overview

What is the major solar projects list?

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is for informational purposes only, reflecting projects and completed milestones in the public domain.

How many solar projects are there?

There are more than 8,100 major solar projects currently in the database, representing over 340 GWdc of capacity. There are over 1,300 major energy storage projects currently in the database, representing more than 104,000 MWh of capacity. The list shows that there are more than 180 GWdc of major solar projects currently operating.

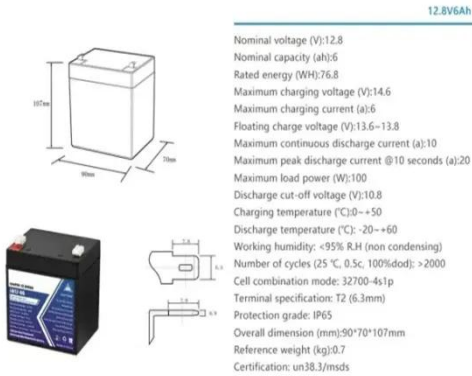

What is a mega solar project?

Industry experts generally consider solar installations exceeding 1,000 MW (1 GW) capacity as mega solar projects. These installations typically feature: Based on the latest 2025 data, here are the world's largest operational solar farms ranked by their installed capacity: 1. Gonghe Talatan Solar Park – China (15,600 MW).

How has the solar energy landscape changed in 2025?

The global solar energy landscape has undergone a remarkable transformation in 2025, with mega solar projects now spanning thousands of acres and generating enough clean electricity to power entire cities.

Gigawatt Solar Major Projects

World's Largest Solar Farms 2025: Complete ...

Discover the world's largest solar farms in 2025. Complete rankings, capacity data, locations, and analysis of mega solar projects ...

Gigawatt-Scale Solar and Storage Projects Unveiled in ...

Discover the latest advancements in renewable energy as ACWA Power and Scatec propel two major solar PV and battery storage projects in Saudi Arabia and Egypt. Stay ...

12.8V 200Ah

Largest solar power projects around the world

News and updates on ongoing solar power projects from ...

China's Ambitious \$11 Billion Solar Farm Project Set to Break ...

This year, China's Three Gorges Renewables Group intends to erect an 8-gigawatt solar farm valued at \$11 billion. Find out more about building this renewable energy source ...

World's 10 biggest solar power projects ...

Discover the world's biggest operational solar farms and the mega projects set to reshape tomorrow's renewable energy landscape.

UAE Leads Global Clean Energy Expansion in ...

The UAE is expanding its global clean energy footprint in 2025, with Masdar and Global South Utilities leading major solar projects across ...

World's 10 biggest solar power projects transforming energy ...

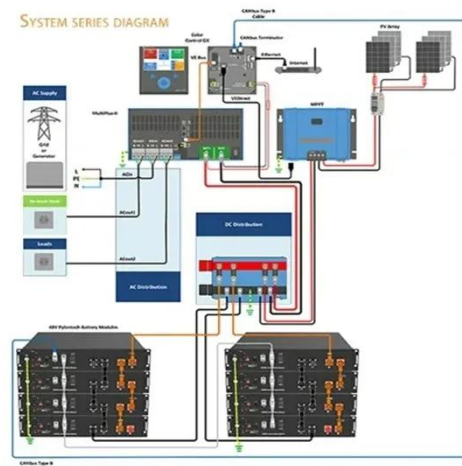

Discover the world's biggest operational solar farms and the mega projects set to

reshape tomorrow's renewable energy landscape.

Gigawatt Scale Projects -> News

Definition Gigawatt Scale Projects are energy infrastructure developments, typically for power generation, with a rated capacity of one gigawatt (1,000 megawatts) or more. This scale ...

Major Solar Projects List

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is ...

Abu Dhabi announces 5.2GW Solar PV Project ...

The project will be developed by Masdar (Abu Dhabi Future Energy Company), in

partnership with EWEC (Emirates Water and ...

China's Ambitious \$11 Billion Solar Farm ...

This year, China's Three Gorges Renewables Group intends to erect an 8-gigawatt solar farm valued at \$11 billion. Find out more about ...

UAE Leads Global Clean Energy Expansion in 2025 with Major Solar

The UAE is expanding its global clean energy footprint in 2025, with Masdar and Global South Utilities leading major solar projects across Asia, Africa, and Europe . UAE ...

World's Largest Solar Farms 2025: Complete Guide To Mega Projects

Discover the world's largest solar farms in 2025. Complete rankings, capacity

data, locations, and analysis of mega solar projects transforming global energy.

Largest solar power projects around the world

News and updates on ongoing solar power projects from around the world from USA, Africa, Europe and Asia. We cover all the largest solar projects.

Solar: Top 10 Projects and Companies in ...

Explore Europe's 2024 solar boom, with gigawatt-scale projects in Germany, Spain, and beyond driving a historic shift in the continent's ...

Abu Dhabi announces 5.2GW Solar PV Project

The project will be developed by Masdar (Abu Dhabi Future Energy Company), in

partnership with EWE (Emirates Water and Electricity Company), and will feature a 5.2GW ...

Solar: Top 10 Projects and Companies in Europe in 2025 and ...

Explore Europe's 2024 solar boom, with gigawatt-scale projects in Germany, Spain, and beyond driving a historic shift in the continent's energy landscape.
