Greek quality energy storage batteries

Overview

Does Greece have a battery storage subsidy program?

Greece's latest auction has awarded subsidies to 188.9 MW of standalone, front-of-the-meter, utility-scale battery energy storage. The auction was the third and final edition of a battery storage subsidy program launched in 2023, with the country now turning its focus towards a new 4.7 GW unsubsidized BESS scheme.

Does Greece have a zero-subsidy battery system?

The much-awaited ministerial decree for zero-subsidy standalone battery systems has been published in Greece. So far, Greece has provided support to 900 MW of standalone storage projects under three previous auctions.

Which energy company offers the lowest bids for a battery project?

Greek firm Hellenic Renewables, which is a subsidiary of Helleniq Energy, offered the lowest successful bids for two battery projects of 25 MW/100 MWh each.

How has the Greek market changed in 2020?

Market conditions In November 2020, the Greek market entered a new phase with the introduction of the Target model which clearly separates the different markets (day-ahead, intraday and balancing markets). Since then, the market has been rapidly evolving further (market couplings, rule adjustments, continuous intraday trading etc.).
