

BLINK SOLAR

Gw30k-dt solar inverter

LiFePO₄ Battery, safety

Wide temperature: -20~55°C

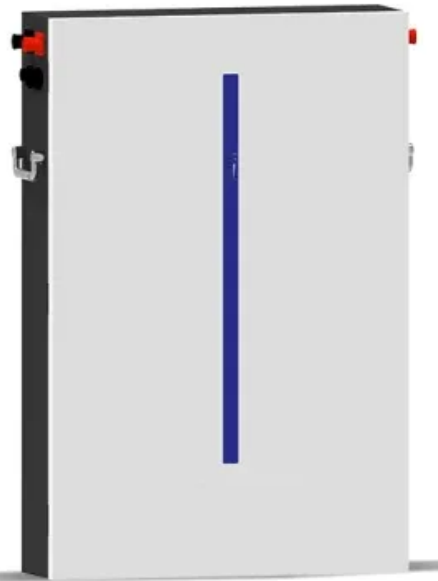

Modular design, easy to expand

Wall-Mounted&Floor-Mounted

Intelligent BMS

Cycle Life: ≥ 6000

Warranty: 10 years

Overview

What is a goodwe SDT G3 Series inverter?

The GoodWe SDT G3 Series, with a power range of 4-30kW, is specifically engineered to cater to the energy needs of three-phase residential and small commercial projects. The inverter boasts an impressive 150% DC oversizing and 110% AC overloading capabilities, allowing for maximum performance and output even in challenging environments.

What is a goodwe gw30k-mt solar inverter?

The GoodWe GW30K-MT is an innovative solution of GoodWe for solar installations with connection to three-phase network. The SMT series inverter is small, light and easy to install. Suitable for both outdoor and indoor installations, this inverter offers a quiet operation due to its fan-less, natural convection cooling.

What is a SDT G3 Series inverter?

The inverter boasts an impressive 150% DC oversizing and 110% AC overloading capabilities, allowing for maximum performance and output even in challenging environments. In addition, the SDT G3 Series inverter's lightweight and easy-to-install design offers exceptional convenience for operators and installers alike.

How many kVA does a gw4000-sdt-30 inverter have?

AC Apparent Power (kVA): *3: When the input voltage is 1000V-1100V, the inverter will enter standby mode. The GW4000-SDT-30 is 4, GW5000-SDT-30 is 5, GW6000-SDT-30 is 6, GW8000-SDT-30 is 8, inverter will return to normal operation state when the voltage returns to the MPPT
