Havana Solar Energy Storage Container 200kWh

Overview

What is luna2000-97/129/161/200kwh?

LUNA2000-97/129/161/200KWH, allows seamless switching between on-grid and off-grid solar systems with active safety and higher reliability. The energy storage system achieves 5% more usable energy and 10%+ higher yields, reducing maintenance costs by auto-sync battery SOC with no need for manual site visits.

What are the benefits of luna2000-97/129/161/200kwh?

The new energy storage system comes with multiple battery capacities for diverse scenarios. A 97 kWh battery, charging at 1C, even allows a small industrial entity to deliver optimal benefits. LUNA2000-97/129/161/200KWH, allows seamless switching between on-grid and off-grid solar systems with active safety and higher reliability.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.
