High quality circuit breaker fuse for sale Price

Overview

What are fuses & circuit breakers?

Fuses and circuit breakers may also be installed in equipment such as your automobile to protect against internal faults. Figure 2-29 shows a variety of fuses and breakers. Fuses use a metallic element that melts when current exceeds a preset value. Thus, if a fuse is rated at 3 A, it will “blow” if more than 3 amps passes through it.

What are striker fuses?

Striker fuses are fuses fitted with a spring-loaded striking device that can trip adjacent switches and also indicate that a fuse has blown. A Type C fuse is actually a type of miniature circuit breaker (MCB). MCBs are a type of circuit breaker used with lower-powered circuits to cut off current in the event of an overload.

What is a Type C fuse?

A Type C fuse is actually a type of miniature circuit breaker (MCB). MCBs are a type of circuit breaker used with lower-powered circuits to cut off current in the event of an overload. Type C fuses trip circuits when the current exceeds the rated one by between five and ten times - i.e. at 100-500 amps for a 20amp device.

Which type of Fuse is suitable for AC 50Hz?

This series of cylindrical fuse is suitable for AC 50Hz, rated voltage to 500V, rated current to 125A. It is mainly used for protecting the electrical circuit against overload.

High quality circuit breaker fuse for sale Price

Circuit Breaker Fuse Breaker

China Circuit Breaker Fuse Breaker wholesale - Select 2025 high quality Circuit Breaker Fuse Breaker products in best price from certified Chinese manufacturers, suppliers, wholesalers ...

China Fuse Circuit Breaker, Fuse Circuit Breaker Wholesale

China Fuse Circuit Breaker wholesale - Select 2025 high quality Fuse Circuit Breaker products in best price from certified Chinese Circuit manufacturers, Integrated Circuit suppliers, ...
