High quality voltage breaker in Korea

Overview

How much will Hyosung Heavy Industries invest in ultra-high-voltage circuit breakers?

Hyosung Heavy Industries said on the 24th it will invest a total of 100 billion won to build a new dedicated export plant for ultra-high-voltage circuit breakers and expand production facilities in Changwon, South Gyeongsang. The dedicated export plant for ultra-high-voltage circuit breakers aims to be completed in the first half of next year.

When will ultra-high-voltage circuit breakers be exported?

The dedicated export plant for ultra-high-voltage circuit breakers aims to be completed in the first half of next year. Once the expansion is finished, production capacity for ultra-high-voltage circuit breakers will increase to about 1.5 times the current level.

Why is a high-voltage circuit breaker expanding?

The expansion is a strategic move to respond to a surge in global demand for ultra-high-voltage circuit breakers, driven by increased power needs from data centers and artificial intelligence (AI) industries and the replacement of aging power infrastructure in advanced economies.
