Overview

What is LG Home 8 energy storage system?

Home is where the 'smart' is. The all-in-one LG Home 8 Energy Storage Systems (ESS) is engineered to store and provide your home up to 14.4 kWh of usable energy from solar panels or AC-coupled power. And with energy efficient solutions, you can rest easy knowing your home is future-proofed with reliable backup power for ultimate peace of mind.

Why should you choose LG Energy Storage Systems?

LG is proud to lead the charge toward a greener future with stylish and dependable electrification solutions. With our all-in-one Energy Storage Systems, we're committed to providing more reliable, renewable energy to power your home when you need it and peace of mind when you don't. Home is where the 'smart' is.

What is LG Energy Solution?

LG Energy Solution showcases various ESS products based on its expertise in developing and manufacturing high-performance, high-quality batteries. It produces ESS for different purposes, including power grid, commercial, residential use, and uninterruptible power supply systems (UPS).

What makes LG Energy Solution ESS unique?

LG Energy Solution's ESS products have three leading competitive edges. First is the application of highly advanced technology in battery cells for ESS. LG Energy Solution manufactures battery cells using the "Lamination & Stacking" method.
