ENERGY STORAGE SYSTEM

Overview

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Which solar inverter/charger is best?

Victron Energy inverter/chargers are our top pick. Explore Solarcraft's range of solar products, including micro inverters, solar panels, grid-tied inverters, batteries, and off-grid solutions. Power your home!.

What is a solar inverter?

A solar inverter is a critical component of a solar energy system, responsible for converting the direct current (DC) power generated by solar panels into alternating current (AC) power that can be used to power homes and businesses. The process of converting DC to AC involves several stages, including the following:.
