Is JSS a good solar company in Jamaica?

Jep Solar Solutions (JSS) is committed to being the best choice for solar energy systems in Jamaica. Through them, we can provide guarantee and warranty on the most efficient solar panels, batteries, and other solar equipment. Performance is guaranteed.

How do solar systems work in Jamaica?

In Jamaica, solar systems owners can connect to the electricity grid via a Net Billing, Power Wheeling, or Auxiliary Connections contract. This allows them to have access to the Jamaica Public Service Company Limited (JPS) grid, as per the Electricity Act 2015 and subsequent legislation.

What does the inverter do in a hybrid solar system?

The sun's energy absorbed by the solar panels goes through an inverter which then distributes the power based on the desired goal. A hybrid solar system facilitates connection of the solar panels to the grid's power lines and have a backup battery system to store excess power.

What is a solar inverter?

A solar inverter is the part of the energy storage solar system that converts direct current from solar modules into alternating current. Different types of solar systems require different types of inverters, and we supply top-of-the-line solar inverters for efficient performance.
