# Household solar 5000w inverter price

## Overview

---

What is 5000W solar inverter?

5000W Solar Inverter 48V DC to 110V/120V AC, built in 80A Mppt charge controller, is a new all-in-one hybrid solar inverter charger, fit for 48V Lead-Acid (seal, AGM, Gel, Flooded) and Lithium battery. Support Utility, Generator and Solar Charge.

How much does a 5kw solar inverter cost?

For example, decent-quality 5kW solar inverters, which can support up to 6.6kW of panels, start at \$1,000 for budget single-phase models (e.g., Sungrow, Goodwe, or Solis) and up to \$2,000 for premium single-phase models (e.g., Fronius or SMA). If you want a 3-phase, 5kW inverter; add around \$400 to those prices.

How much power does a solar inverter use?

An inverter's standby power consumption, for example, during the night or in other very low lighting conditions, also impacts overall output, but this draw is tiny - usually in the range of 1 to 5 Watts, although 5 Watts would be considered high. Most solar inverters supplied by reputable retailers in Australia are OK, with the emphasis on "most."

How much does a solar inverter cost?

The inverter can represent around 20% of the cost of a solar power system. For example, decent-quality 5kW solar inverters, which can support up to 6.6kW of panels, start at \$1,000 for budget single-phase models (e.g., Sungrow, Goodwe, or Solis) and up to \$2,000 for premium single-phase models (e.g., Fronius or SMA).
