# How long does it take to replace solar glass

## Overview

---

Can you replace glass on a solar panel?

No, you cannot replace the glass on a solar panel, at least not without a significant investment. It would be much cheaper to replace the damaged solar panel with a new panel than replacing the glass. Some solar panels are flushed sheets of silica. Removing a fused sheet of silica from another is nearly impossible.

How do you fix a solar panel with broken glass?

The best way to fix a solar panel with broken glass is to replace it. Most solar panels are under warranty, and the standard warranty is generally for 25-years. If there is another issue with the solar panel, such as a bad microinverter, you would still replace the panel.

Can a solar panel be repaired?

In some cases, you can repair a solar panel. For example, if a rodent chewed the wiring harness, you could replace the harness. If the glass is broken or cracked, it is best to replace the solar panel. Sources.

What happens if a solar panel breaks glass?

If your solar panel has broken glass, two things can happen: Water or condensation can seep between the glass and the backing film. Water would disrupt the operation of the solar panel, and water is a bridge for electricity.
