How long does the battery warranty for new energy storage cabinet last

Overview

In general, most suppliers offer a warranty period ranging from 1 to 5 years for their battery cabinets. However, some high-end products may come with a warranty period of up to 10 years or more. Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.

Which battery storage system has the strongest warranty?

Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty. Why are battery warranties important?

A battery storage system is a decades-long investment that a warranty can help protect.

How long does a battery warranty last?

A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery. Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment.

Does a battery warranty cover labor costs?

Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment. Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty.
