They are graded as Cargo Worthy, Windwater Tight or As Is. As previously mentioned, Container Management, Inc. never sells As-Is condition containers. As a general rule of thumb, a used 40-foot standard container will be priced around 30% more than a used 20-foot container, of the same condition.

What is a new shipping container?

New shipping containers are pristine, and in most cases they've only made one trip from the manufacturer to their current location. This "one-way" journey means the container is in excellent condition, free from the wear and tear associated with frequent use. Here's the breakdown of costs for new shipping containers:.

What size shipping container do I Need?

Choosing the right size is critical as it impacts both cost and usability. The 20-foot, 40-foot, and 40-foot High Cube containers are the most common sizes for shipping containers that are to be used for export shipment or for storage. Both sizes are large enough to hold a substantial amount of freight and fit into loading slots on container ships.
