Greening The Reefer  
A Solar Reefer in Its Natural Habitat  
References  
Containers are meant to be stacked on top of one another. A stacked container, hidden within other container stacks, is not going to receive a plethora of sunlight. Containers have a rough life. Tools, stowage gear, and other heavy equipment are constantly bumping into and falling onto containers, so it would be hard to imagine a fragile solar array. See more on the liquidgrid pazago
