# **How much does a 9-meter container generator cost**

## Overview

---

How much does a portable generator cost?

The cost of a portable generator ranges from \$1,000 to \$2,500 for a larger model (7-8 kW) that can power a good portion of a smaller or older home. However, it may not provide enough energy for a large central air conditioning system or a heat pump. For instance, the Powermate PM 0497000.02 [1] is priced at approximately \$1,300 to \$1,900.

How much does a small generator cost?

Small recreational generators, ranging from \$200-\$650 or more, are suitable for camping or tailgating. For instance, the Generac GP1800, with 1800 watts, sells for approximately \$375-\$400. These generators usually power only one appliance at a time and require frequent gas tank refills.

What is a forx container type diesel generator set?

FORX container type diesel generator set uses advanced sound-absorbing material, through scientific design and the advanced technology in the field of acoustics, airflow to achieve the goal that reduces the noise.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.
