## Overview

---

What is a Cyberpower medical grade UPS system?

CyberPower Medical Grade UPS systems have been designed to power and protect sensitive equipment in hospitals and healthcare facilities. Each medical UPS is UL 60601-1 tested to provide standby power in patient-care settings and comes with hospital-grade plugs and hospital-grade outlets, and a built-in isolation transformer.

What is a medical ups ul 60601-1?

Each medical UPS is UL 60601-1 tested to provide standby power in patient-care settings and comes with hospital-grade plugs and hospital-grade outlets, and a built-in isolation transformer. CyberPower manufactures high-quality uninterruptible power supply and UPS products for hospitals, medical clinics, and healthcare facilities.

What is an uninterruptible emergency power supply?

An uninterruptible emergency power supply is an emergency power supply that can supply power without interruption (a power supply that ensures continuity of AC power) even if the commercial power supply is stopped.

Why is ups important?

UPS is an extremely important device that supplies power when power outages and other power problems occur, playing a role in reducing these risks. \*If this product is used in medical electrical equipment that directly affects human life, special consideration must be given to operation, maintenance, and management. Please consult with us.
