How to connect the HTC base station to the power supply

Overview

Plug the base stations into two AC power outlets. Feel free to use extension cords. One base station should have the letter "B", and the other "C". How do I connect my HTC Vive base station?

When it comes to connecting the power for your HTC Vive Base Station, all you need to do is plug in the provided power adapter to an electrical outlet. Make sure to place the base station in an area where there is easy access to power.

How do you set up a TV base station?

Adjust the base stations so that the front panels are facing toward the center of the play area. Attach the power cables to the base stations, and then plug them each into a power outlet to turn them on. The status lights should be green. Connect the base stations and set the channels.

How do I connect my base stations?

Attach the power cables to the base stations, and then plug them each into a power outlet to turn them on. The status lights should be green. Connect the base stations and set the channels. Note: For details on how to get the sync cable, contact customer care.

How do I mount the base stations?

Mount the base stations at the edge of the tracking area near power outlets. If you're not able to mount the base stations using the mounting kit, you can attach them to tripods or place them on a stable surface, as long as it's high enough. For details on using the mounting kit, visit VIVE Support.
