Huawei Denmark Battery Energy Storage

Overview

Will Huawei deliver 132 MWh battery energisation in 2026?

Danish renewable energy developer Copenhagen Energy has selected Chinese technology company Huawei to deliver the battery systems needed for a 132-MWh portfolio of energy storage facilities at home. Dubbed Everspring, the battery energy storage system (BESS) portfolio targets energisation in the spring of 2026.

Who will supply Copenhagen Energy's 132 MWh Everspring battery energy storage system?

Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will be supplied by Huawei Digital Power. Image: Huawei Digital Power. Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will source its technology from Huawei Digital Power.

What are Huawei's intelligent lithium battery solutions?

Huawei's intelligent lithium battery solutions provide dynamic peak shifting, transforming traditional backup power systems into efficient energy storage solutions that enhance system flexibility and reliability.

Who is energid & Huawei?

In July, Danish company Energrid was hired as the engineering, procurement, and construction (EPC) contractor for the projects. Danish renewable energy developer Copenhagen Energy has selected Chinese technology company Huawei to deliver the battery systems needed for a 132-MWh portfolio of energy storage facilities at home.
