# **Huawei Peru dedicated solar container battery**

## Overview

---

What is Huawei battery energy storage system?

This is where Huawei BESS (Battery Energy Storage System) becomes a game-changer. Designed for commercial and utility-scale applications, this innovative solution addresses the core pain points of modern energy management. Why Choose Huawei's Battery Energy Storage System?

.

What is the storage system made by Huawei Luna 2000?

The storage system made by Huawei LUNA 2000 is available. The system can be modulated with lithium batteries from 5KWh to 15KWh. High-voltage lithium iron phosphate (LFP) batteries have a very stable and resistant chemical structure. This technology allows optimization of the energy level of the battery pack.

How does the Huawei Luna battery pack work?

This technology allows optimization of the energy level of the battery pack. Huawei Luna consists of the Power Module, the electronic component and 5 kWh battery packs. The modular design allows to expand the storage capacity from 5 kWh up to 15 kWh with the possibility of stacking up to 3 battery packs (of 5 kWh each) for each system.
