Huawei charging pile with energy storage function

Overview

How many Huawei Supercharge charging piles will be installed in China?

(Yicai) Dec. 8 -- Huawei Technologies will join hands with its clients and business partners to install over 100,000 Huawei SuperCharge charging piles along major roads in China next year. The project will touch more than 340 Chinese cities, Hou Jinlong, president of Huawei Digital Power Technology, said during an industry forum yesterday.

What is Huawei Supercharge?

Founded in 2021, the unit of the Shenzhen-based telecoms giant focuses on clean energy generation, data centers, and electric mobility. Huawei launched the SuperCharge platform this year to enable a range of more than 200 kilometers after just five minutes of charging.

Does Huawei have a 3,000-kilometre range and 5-minute charging range?

While Huawei's claims of a 3,000-kilometre range and five-minute charging have generated widespread attention, experts warn that such figures remain theoretical and would require charging infrastructure that is not yet commercially available.

How to test Huawei charging dispenser onsite 4G communication?

To ensure network experience, Huawei charging dispensers only supports 4G communication. Therefore, the onsite 4G communication environment needs to be tested. Prepare SIM cards of different carriers that support 4G communication to test onsite 4G communication network signals. Insert SIM cards of different carriers into your phone.
