Overview

What is Huawei ids1000a all-in-one container data center?

Huawei IDS1000A All-in-one container data center is a one stop infrastructure solution integrating power, cooling, cabinet, fire-control, cabling, monitoring, grounding and lightning system. It two standard products includes 40ft and 20ft. Above configuration can be partially customized according to customer needs.

What are Huawei cloudpower ids1000 series container data center solutions?

It complies with customers' diverse business needs. Huawei CloudPower IDS1000 series container data center solutions include two types: IDS1000C (Cluster) and IDS1000A (All-in-one), providing more than 10 solutions for customers.

How many configurations does Huawei ids1000c support?

Meanwhile, control container and 20ft-power container are optional. Huawei IDS1000C solution provides 3 typical configurations, and supports flexible combination of different modules to meet customers' diverse requirements.

Can a battery cabinet be deployed outside a smart module?

Battery cabinets or racks can also be deployed outside smart module A (batteries deployed outside) or smart module B. The front door is a single door, and the rear door is a double one. Shoto batteries are supported.
