

**BLINK SOLAR**

# **Huawei large energy storage vehicle supplier**

## Overview

---

Are Huawei & SAIC planning a new energy vehicle production base?

According to the reports, Huawei and SAIC are now penning agreements with the Lingang New Area to create a new line of energy vehicles (EV) and battery plants to power them. The aim of this agreement with the Lingang in Shanghai's free trade zone is to build the "Shangjie High-end Intelligent New Energy Vehicle Production Base".

Are Huawei & SAIC working on a new smart car brand?

Huawei and SAIC have jointly developed the Shangjie smart car brand, and now both parties are putting in more efforts to expand this new project via EV and battery plants. These plants will open a new production base for SAIC in China. Both SAIC and Huawei have been working for months on a new EV brand called Shangjie.

What is energy storage system products list?

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

Why is Huawei developing a solid-state battery?

Huawei's design aims to boost safety and cycle life by mitigating degradation at this critical junction. Huawei's involvement in solid-state battery research reflects a broader trend among Chinese technology and automotive companies. While Huawei does not manufacture power batteries, it has shown increasing interest in upstream battery materials.
