Huawei makes solar panels in Bulgaria

Overview

What is the largest solar project in Bulgaria?

This makes the 400 MW Apriltsi project not only Bulgaria's largest solar park but also the largest in Eastern Europe and the Balkans, capable of powering 96 thousand homes. Of particular note, the Apriltsi project represents the world's largest single-site heterojunction solar project.

What is Bulgaria's largest solar park?

By the end of May, 251 megawatts were officially operational, with the remainder undergoing testing and set for imminent activation. This makes the 400 MW Apriltsi project not only Bulgaria's largest solar park but also the largest in Eastern Europe and the Balkans, capable of powering 96 thousand homes.

Will heterojunction represent the majority of solar panels produced globally?

“We believe that maybe in five years, heterojunction is going to represent the majority of solar panels produced globally,” commented Veselin Zahariev, Chief Financial Officer of Solar Green Energy, the owner of the Apriltsi project. Huasun VP Matthew Jin added: “We started supplying solar panels for the plant in 2021.

How many photovoltaic modules are installed in Apriltsi solar power project?

It has been recently reported that the Apriltsi solar power project, located in the southern town of Pazardzhik, Bulgaria, has completed the installation of over 824,000 photovoltaic modules, totaling a capacity of 400 MW.
