# Huawei s charging piles that support energy storage

## Overview

---

How many Huawei Supercharge charging piles will be installed in China?

(Yicai) Dec. 8 -- Huawei Technologies will join hands with its clients and business partners to install over 100,000 Huawei SuperCharge charging piles along major roads in China next year. The project will touch more than 340 Chinese cities, Hou Jinlong, president of Huawei Digital Power Technology, said during an industry forum yesterday.

What is Huawei Supercharge?

Founded in 2021, the unit of the Shenzhen-based telecoms giant focuses on clean energy generation, data centers, and electric mobility. Huawei launched the SuperCharge platform this year to enable a range of more than 200 kilometers after just five minutes of charging.

What kind of charging cable does Huawei use?

Huawei uses a USB Type C 40W Superfast Charging Charger for fast charging. This cable is compatible with various Huawei devices such as P40 Pro, P20, P30 Pro, P30, Mate 20 Pro, Mate 20, Mate 20 RS, nova 5 Pro, and Honor 20.

How many charging piles are there in China?

China had almost eight million charging piles as of Oct. 31, up 69 percent from a year ago, per statistics from the China Electric Vehicle Charging Infrastructure Promotion Alliance. The figure includes more than 2.5 million public charging piles, rising by more than half.
