India Mumbai Green Energy Storage Power Company

Overview

Will Tata Power install a 100 MW battery energy storage system in Mumbai?

Mumbai, 7th April, 2025 – Tata Power, India’s largest integrated power company and a trusted electricity provider to approx. 8 lakh residential and commercial consumers, has received approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100 MW Battery Energy Storage System (BESS) in Mumbai over the next two years.

How can India achieve a green energy future?

India ranks fourth in total renewable power capacity additions as it works toward its goal of generating half its electricity from non-fossil fuel sources by 2030. To achieve a green energy future, Indian companies are developing alternatives like solar, wind, green hydrogen, biomass and hydropower.

Where will Tata Power install a 100 MW power system?

The entire 100 MW system will be installed across ten strategically located sites, especially near load centres across Mumbai Distribution, centrally monitored and controlled from Tata Power’s Power System Control Center.
