Installation Solution for a 200kW Mobile Energy Storage Container

Overview

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO₄) combined with an intelligent 3-level battery management system (BMS);.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

What solar systems work with Megatron battery energy storage systems?

Inquire Now! ATLAS Commercial and HERCULES Carport PV systems perfectly pair with MEGATRON battery energy storage systems. MEGATRON 50kW to 150kW systems can be paired with 50kW to 100kW's of PV. Each BESS has either 50kW or 100kW solar inverter integrated into the containerized system.
