

BLINK SOLAR

Italian solar glass stone manufacturer

Overview

What is stoneglass® made in Italy?

The material shaping the architecture of the future Stoneglass® is the Made in Italy material born from the fusion of technology, aesthetics and sustainability.

What is stoneglass®?

Stoneglass® is the Made in Italy material born from the fusion of technology, aesthetics and sustainability. Used by architects and designers worldwide, it offers unparalleled resistance, formal purity, and design freedom in every application: from cladding and ventilated facades to flooring, bathrooms, marine environments, and more.

When did luminous stone start?

The first installations of Luminous Stone began in 2008. In 2016, the first artisanal production of Invisible Solar photovoltaic roof tiles was launched. Since 2017 Dyaqua has become a company owned by the Quagliato family.

What sizes can stoneglass® be made in?

Stoneglass® can be produced in customizable sizes up to 3 meters in length and a maximum height of 180 cm. Thicknesses range from a minimum of 4 mm to a maximum of 30 mm. Each slab can be tailored to meet specific design requirements. 03. Is the material also suitable for outdoor use?

Absolutely yes.
