# Italy 20kw energy storage

## Overview

---

How much will Italy's energy storage program cost in 2023?

In December 2023, the EU greenlit Italy's energy storage program, earmarking a hefty investment of €17.7 billion. This initiative is anticipated to facilitate the construction of over 9GW/71GWh of energy storage systems (ESS).

What is Italy's energy storage structure?

Italy's energy storage structure is also dominated by residential storage, which accounts for more than 80% of new installations. In December 2023, the EU greenlit Italy's energy storage program, earmarking a hefty investment of €17.7 billion.

How much storage capacity will Italy have in 2023?

According to TrendForce statistics, Italy saw an impressive increase in storage capacity in 2023, adding around 2.4GW/3.9GWh, marking a significant rise of 117% and 90% from the previous year. Residential storage dominated this growth trend. TrendForce anticipates further expansion in 2024, with Italy projected to add 2.6GW/6.2GWh of ESS capacity.

How much ESS capacity has been installed in Italy in 2023?

According to ANIE data, as of 30 June 2023, a total of 3,045MW/ 4,893MWh of ESS capacity were installed in Italy, of which 776MWh of residential storage capacity were installed in Q2 of 2023, a 13% decline from the previous year. The reduction is mainly due to the retreat of Superbonus subsidy policy.
