Ivory Coast generator silencer container

Overview

Why should you use an exhaust silencer for a generator set?

When one is looking to obtain a noise reduction by the means of a silencer, ITS offers a wide range of exhaust silencers for generator sets for various applications related to acoustic insulation / soundproofing: protection of workers against noise, preservation of acoustic environment, limitation of noise emissions in the energy sector.

What is a generator silencer?

These silencers are often used in places like hospitals, airports, and data centers. They help manage both low and high-frequency noise. Their flexible performance makes them suitable for meeting critical grade and hospital grade sound rating requirements. Generator silencers come in cylindrical or low-profile designs.

Who sells generator mufflers & silencers?
