# Kabul Solar Container 5MWh

## Overview

---

What is a 5MWh energy storage system containerized?

The 5MWh energy storage system containerized is a intelligent monitoring and high protection level, and is suitable for a variety of complex scenarios to meet the energy storage needs of the industrial and commercial sectors, the electric power grid, and renewable energy. The 5MWh energy storage system container consists of 12 energy storage units.

How many energy storage units are in a 5MWh energy storage system?

The 5MWh energy storage system container consists of 12 energy storage units. A single energy storage unit is made up of 1 lithium battery cluster. Due to their high capacity and small size, 3.2V/314Ah lithium batteries make excellent energy storage containers and designs. Each battery cluster is comprised of 4 battery boxes and 1 high-voltage box.

Does a 5MWh battery container have two clusters?

Battery Rack (Two battery clusters) NO. Fig4. Outside View of 5MWh Battery Container Standard 20 -foot battery container has two stacks, one side O&M, every container has two out for one PCS. Fig5.

How many stacks does a 5MWh battery container have?

Outside View of 5MWh Battery Container Standard 20 -foot battery container has two stacks, one side O&M, every container has two out for one PCS. Fig5. Electric Wiring Diagram of Battery Container (for reference) NO. Fig5. BMS Architecture Diagram(For reference)
