# **Khartoum Small Solar Mobile Lighting**

## Overview

---

What is a mobile solar light tower?

The mobile solar light tower is a portable lighting system integrating solar panels, LED lighting, intelligent control, 4G monitoring system, communication base station, and a hybrid battery storage of solar and grid electricity, suitable for various temporary or long-term lighting needs.

What are greenshine mobile solar light towers?

Greenshine mobile solar light towers extend up to 20 feet and retract to 6'3", lighting up large areas while requiring no connection to the power grid. These towers include different operating modes like "Dusk 'til Dawn" and other custom settings accessible through the Greenshine Connect App.

How many square meters can a solar light tower illuminate?

Small Model solar powered light tower, height 6 meters (19 feet), can illuminate 750 square meters, equivalent to lighting up 1.5 standard basketball courts.
