Latest solar street light inverter

Overview

What is an-SLV solar street light?

AN-SLV series high-power commercial all in one LED solar street light is the latest cost-effective integrated outdoor solar led street lamp launched by Anern. The silver die-cast aluminum lamp body is equipped with a detachable battery box and COB LED lamp. The customized size is from 40W to 150W, suitable for different government projects.

How to design a solar street light?

1. Solar Street Lighting Demand Design Formula: $P_{LED} = E \times A / (\eta \times U \times K)$
Example: Road width 6m, distance between lights 25m, target illuminance 20 lx → $P_{LED} = 20 \times (6 \times 25) / (0.85 \times 0.5 \times 0.75) = 20 \times 150 / 0.32 \approx 94W$ → Choose a 100W LED module (Luminous flux 15,000 lm)
2. Solar Street Light Photovoltaic System Capacity Calculation Steps: 3.

What is anern solar LED street lights?

Anern Solar LED street lights are a solar solution that replaces traditional street lights by combining solar energy and LED light sources. Solar panel street lights can not only meet the basic functions of lighting, but they can also provide brightness that can reach 2-3 times the brightness of the traditional ones.
