Latin American Energy Storage Container Exchange Installment Payment

Overview

What is the Energy Storage Summit Latin America?

The Energy Storage Summit Latin America will bring together over 300 peers and innovators across the energy storage eco-system, to delve deeper into the current successes and challenges for energy storage in Latin America. Join us in October 2025 to further the industry and secure your stake in Latin America's evolving regional markets.

Which countries are embracing solar energy storage in Latin America?

Argentina has awarded 667MW of battery energy storage system (BESS) in its first tender under the AlmaGBA scheme. Chile is leading Latin America's wave of energy storage adoption, closely linked to its embrace of solar PV.

Is Chile leading Latin America's wave of energy storage adoption?

Chile is leading Latin America's wave of energy storage adoption, closely linked to its embrace of solar PV. Utility and independent power producer (IPP) Engie has started commercial operations of its 48MW/264MWh battery energy storage system (BESS) Capricornio project in the northern region of Antofagasta, Chile.

Which countries have a storage market in Latin America?

Other exciting markets in Latin America include Brazil, the Dominican Republic, Puerto Rico, Peru and Colombia. Brazil has confirmed its first standalone storage auction for June 2025, whilst new incentives for storage are becoming more commonplace across the continent in markets such as Chile or the Dominican Republic.
