# Lighting Super Long Distance Solar Light Outdoor Light

## Overview

---

What are the best outdoor lights for outdoor spaces?

Our top pick for most outdoor spaces is the AloftSun Motion Sensor Solar Landscape Spotlights. We love these lights so much, we've tested them twice. Both times we found them to be durable, easy to use, and bright. We also love that these spotlights can detect motion from as much as 33 feet away, depending on the setting.

How long do aloftsun outdoor lights last?

The AloftSun Solar Motion Sensor Outdoor Lights are expected to last a minimum of 40,000 hours. Credit: Better Homes & Gardens The solar lights are bright at night, easily illuminating our yard and paths on low dimming modes. Credit: Better Homes & Gardens We tested the waterproofing features of the lights in our lab. Credit: Better Homes & Gardens.

What are outdoor solar lights?

Outdoor solar lights simplify exterior illumination, offering beautiful, functional lighting without the need for wiring. These lights are available in a variety of forms to help improve home safety and security, light up patios and walking paths, or create a cozy glow around your lawn, garden, or pool.

How long does a solar ground light last?

The outdoor solar ground light adopts the advanced, LED energy-saving, Ni-MH 600 solar lamp. This lamp can be operated for 10 hours (8 hours of sunshine) per day or about 8-10 hours after dark by using the solar panel. It has an external waterproof switch that is better than the pinhole switch in order to prevent accidental water damage.
