# Lithium energy storage power supply price in Mumbai India

## Overview

---

Why are lithium-ion batteries growing in Mumbai?

Mumbai, the bustling financial hub of India, has emerged as a significant center for the manufacturing and supply of lithium-ion batteries. The increasing demand for electric vehicles, renewable energy storage, and various portable electronic devices has propelled the growth of this industry in the city.

How big is the lithium ion battery market in India?

The market for lithium ion battery in India is expected to attain USD 10.96 Billion by 2034. The market is experiencing tremendous B2B growth driven by electrification ambitions, industry sustainability objectives, and localisation of high-technology storage solutions.

Where are lithium ion battery manufacturers located in Mumbai?

Andheri, a prominent suburb in Mumbai, serves as a crucial supply chain center for lithium ion battery manufacturers. The area is home to numerous industrial complexes and warehouses that facilitate the storage and distribution of battery components.

What are the benefits of lithium ion battery technology in India?

This technology provides up to 15% increased runtime, 30% reduced energy consumption, and 5,000 charge cycles, as against conventional lead-acid batteries. The market for lithium ion battery in India is expected to attain USD 10.96 Billion by 2034.
