Lithium power station factory in Brasilia

Overview

Who owns lithium in Brazil?

With approximately 539 square kilometers of lithium mineral rights in total, Atlas Lithium owns the largest lithium exploration footprint in Brazil of any publicly listed company. Additionally, Atlas Lithium currently holds an approximate 32.2% ownership stake in Atlas Critical Minerals Corporation.

Is Xiaomi a key lithium producer in Brazil's emerging Lithium Valley?

This pivotal achievement underscores the Company's progress toward becoming a key lithium producer in Brazil's emerging Lithium Valley.

Why is BMC launching a lithium battery project in Brazil?

"We are excited about this historic collaboration which will not only boost the local economy but also position Brazil at the forefront of technological innovation in the lithium battery sector. This project will create thousands of jobs and promote sustainable economic growth," says BMC CEO Eduardo Javier Muñoz.

How much lithium does Brazil produce?

Brazil produced only 600 metric tons (mt) of lithium in 2018, accounting for about 0.7% of the global market. The country's entire output of the mineral was mined by Companhia Brasileira de Lítio (CBL), a company co-owned by CODEMGE.
