Lithium power station factory in Italy

Overview

Is Italy planning a new 8 GWh battery production facility?

Energy S.p.A. is making plans for a new 8 GWh battery production facility in Italy's Veneto region, where it already operates a 400 MWh production line in partnership with Pylontech EU.

What is Italy's largest battery cell factory?

Italvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory. The battery cell factory will focus on creating new opportunities for re-skilling and upskilling workers from Italy's automotive industry.

Where is italvolt battery factory located?

Italvolt has made a strategic decision to locate its battery cell factory in Italy, the country where Alessandro Volta invented the battery in 1800. Today, Italy holds significant opportunity for the modern battery industry, with its strategic location and highly skilled workforce.

How will italvolt support Italy's Green industrialisation ambitions?

Italvolt intends to honour Italy's important industrial legacy by supporting the country's green industrialisation ambitions, and by delivering battery cells which will help drive decarbonisation across a variety of industries. Italvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory.
