## Overview

---

Who is ups servicing?

Our UPS servicing team consists of experienced professionals with more than five decades of experience. Stuart and Nik Morley founded PCAS Ltd. with one goal: to keep the wheels turning and business productive. Comprehensive Power Protection Are you looking for the best power backup?

.

What is uninterruptible power supply maintenance?

This is why our Uninterruptible Power Supply maintenance package is designed to provide you with the support you need throughout all stages from installation to maintenance. Linnet have been responsible for the maintenance of our UPS and other battery systems for a number of years and have always provided a first class service.

What is an uninterruptible power supply (UPS)?

Many businesses opt for an Uninterruptible Power Supply (UPS) for vital backup power when the mains or regular supplier fails. Having an Uninterruptible Power Supply in place and properly set up means, as the name suggests, no interruption in power before your standby generator can kick in.

How to choose an ups room?

First and foremost, you need to consider UPS room location. You need to think about where the power supply is for your business, and where the various devices and electronics that will need to be powered are. UPS systems are vital for protection, but they also require safeguarding to prevent potential hazards.
