Low-pressure folding container for fire stations

Overview

What is a folding water tank?

Fol-Da-Tanks Fol-Da-Tank Company patented the first folding tank in 1954 and introduced it to firefighters who immediately recognized its value and quality. Foldable tanks are the practical answer as an extra water supply for rural and forestry needs. The tanks come in 9 standard sizes with steel or aluminum frames available.

What types of fire training technologies can a container structure accommodate?

Our container structures can be designed to accommodate any and all of our proprietary fire training technologies (digital, gas fueled and carbonaceous). Enhance your training by including tactical elements such as forcible doors, cold cut panels and backdraft indicators in your design.

Who can use containerized fire training structures?

Our containerized fire training structures can serve a wide range of industries requiring fire and safety training including airline, military, oil and gas, petrochemical, fire departments, and training academies.

What is a folding frame tank?

Husky® Folding Frame Tanks are the leading folding frame tank for water shuttle operations and rural water supply. Our folding frame tanks are easy to set-up, easy to tear down, and easy to store. From the youngest rookie to the most skilled veteran firefighters Husky's® Folding Frame Tanks were voted the easiest and safest tanks to use.
