

BLINK SOLAR

Mauritius solar air conditioner factory direct sales

Overview

Who is solarcool Mauritius?

SolarCool Mauritius Ltd is a company pioneering the use of clean, efficient and eco-energy solutions for the end user. We thrive for the perceptive usage of Solar Thermal Collection for both commercial and residential cooling and heating applications. All our fitters are experienced time served HVAC and Refrigeration engineers.

Are solar panels a good investment in Mauritius?

Tax Incentives: In Mauritius MRA offers tax credits to encourage the adoption of solar energy. These incentives can help reduce the upfront cost of installing solar panels, making them more financially attractive. Low Maintenance: Solar panels are relatively low maintenance.

How can I make Mauritius more eco-friendly?

By the way: CEB's Carbon footprint is still over 80% fossile so taking action yourself can help accelerate Mauritius to become more eco-friendly. This kit is ideal for small Mauritian households with 2 air-conditioning devices, refrigerator, washer and a water pump.
