Mbabane home ups uninterruptible power supply sales

Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) is a device that offers battery backup in the event the main electrical supply fails or drops. Smaller UPS systems deliver power for a few minutes or so – just enough time to save any important files and shut down the computer properly. Larger systems have enough power to last several hours.

How much does an uninterruptible power supply cost?

Protects the integrity of your data and applications by shielding electronic equipment from power outages, surges, sags, brownouts, and . The listed price of a Uninterruptible Power Supply (UPS) for sale ranges from \$99 to \$7,980, averaging \$2,168.

Does 4cabling sell uninterruptable power supply products?

4Cabling sells a number of uninterruptable power supply products. The right product should support your hardware. If you don't have the right UPS for your hardware, the UPS doesn't have the capability to keep the hardware powered on. The result is your equipment loses power and users lose data.

What is 3 phase UPS power protection?

3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data centers, mission-critical systems, and industrial/manufacturing processes. Replacement battery cartridges (RBC) for Back-UPS, Smart-UPS and Smart-UPS on-line.
