# Mexico backup solar container battery

*Test certification*  
CE  FC 

## Overview

---

The Latin American Energy Organization (LAEO) released a white paper on energy storage in Latin America and the Caribbean, noting that Mexico has enacted unique regional regulations requiring solar and wind power plants to be equipped with battery systems equivalent to 30% of their installed capacity, with a target of adding 574 MW of energy storage capacity by 2028. Will Mexico colocate battery energy storage systems?

Future wind and solar energy projects in Mexico will be required to colocate battery energy storage systems equivalent to 30% of their capacity, a senior government official told the Senate on Tuesday.

What are the top 10 energy storage manufacturers in Mexico?

This article will introduce the top 10 energy storage manufacturers in Mexico, such as INNOVACION SOLAR, Terra Energy, Genersys Mexico, Quartux, ON Energy Storage, SPIC-Zuma Energia, Smart Energy Mexico, Mexico Energy Partners, AspenEnergy, Voltrak. You can also check the following top list about energy storage to know more information:.

Does Mexico have a 30% energy storage mandate?

A month after India introduced an energy storage mandate for renewable energy plants and China scrapped its own, Mexico has stepped forward with an ambitious 30% capacity requirement, alongside plans to add a further 574 MW of batteries by 2028.

Will Mexico develop energy storage technologies in the next decade?

However, we expect Mexico to develop its energy storage technologies significantly over the next decade, as well as its lithium mining industry, as it increases its renewable energy capacity as part of a global green energy transition.
